Keynote Speaker: Astronaut BGEN USAF (Ret) Charles Moss Duke, Jr. is one of the 19 astronauts selected by NASA in April, 1966. Duke served as lunar module pilot of Apollo 16, April 16-27, 1972. Apollo 16 was the first scientific expedition to inspect, survey and sample materials and surface features in the Descartes region of the rugged lunar highlands. Duke and John Young, spacecraft commander, commenced their lunar surface stay of 71 hours and 14 minutes by maneuvering the lunar module “Orion” to a landing on the rough Cayley Plains. In three subsequent excursions onto the lunar surface they logged 20 hours and 15 minutes in extravehicular activities. Astronaut Duke also served as the backup lunar module pilot for the Apollo 13 and Apollo 17 flights. In December 1975, Duke retired from NASA and entered the USAF Reserves and served as Mobilization Augmentee to Commander AF Basic Military Training Center and to Commander USAF Recruiting Service. He was promoted to Brigadier General in 1979 and retired in June, 1986. Duke is married to Dorothy and they have two sons and nine grandchildren.
